

Introduction: Our Story

Over 25 years ago, the owner of our company met a Bermudian that had been purchasing quality Amish leather harnesses and carriages handcrafted in Lancaster County PA. He also bought feed and supplies from our sister company Stoltzfus Feed & Supply. Our friend expressed the desire that we consolidate his purchases and ship them in one container to Bermuda. Through this trust Stoltzfus Export & Supply was born.

We researched the need and viability of providing not only equine supplies, like harnesses and feed, but other agricultural products as well. This caused us to create a system of sourcing, logistics, and delivery through consolidation of export containers to ship to Bermuda. Giving Stoltzfus Export & Supply the reliable ability to continually fill the needs of their partners in Bermuda on a regular basis for over 26 years.

The Team

Our Export Team works hard to make sure you get the products you are looking for. The office team works closely with the warehouse to insure that containers are timely and packed cost effectively. Call with your questions. They are happy to help!
